**Subject:** CUPE 2424 Vaccine Safety & Efficacy Info Session w/ Dr. Erling Rud (Video)

Dear Members,

We heard from many of you who were unable to attend our COVID-19 Vaccine Safety and Efficacy Information Session back on March 31. We are happy to provide a recording of the event for our members.

The presentation was delivered by [Erling Rud](#), Adjunct Professor in the department of Health Sciences at Carleton. Dr. Rud recently retired from Health Canada where he spent part of the past few years supporting the Public Health Agency of Canada, specifically in the Centre for Immunization and Respiratory Diseases (CIRID). In that role he supported the National Advisory Committee on Immunization (NACI). He also spent much of his post-doctoral career, spanning 32 years, on vaccine research and development in the biotech/pharmaceutical, academic, and government sectors.
